Experience

April 2024 - Current
Bharat Intern | Bhopal , Madhya Pradesh
Web Development Intern

I'm currently working as a Web Development Intern at Bharat Intern, and actively engage in the development and enhancement of web-based projects. Through hands-on experience, I refine my skills in front-end and back-end development, utilizing technologies such as HTML, CSS, JavaScript, and frameworks like React.js or Angular.js. Additionally, I'm gaining valuable insights into industry best practices and fostering growth in a dynamic and supportive work environment.

March 2024 - April, 2024
Cognifzy Technologies | Nagpur, Maharashtra
Web Development Intern

As a web development intern at Cognifzy Technologies from March to April, 2024, I gained valuable hands-on experience in various aspects of web development. Collaborating with seasoned professionals, I contributed to the development and maintenance of web applications, honing my skills in HTML, CSS, JavaScript, and backend technologies. Through tackling real-world challenges, I cultivated problem-solving abilities and enhanced my understanding of web development best practices. Overall, my internship at Cognifzy Technologies provided me with a solid foundation and practical insights into the dynamic field of web development.

2023 - 2024
Gargi Memorial Institute of Technology | 123 Anywhere St., Any City
Research & Development Team

From 2023 to 2024, I contributed as an R&D team member at Gargi Memorial Institute of Technology. In this role, I engaged in innovative research and development projects, collaborating with fellow team members to explore new technologies and solutions. I actively participated in experiments, data analysis, and problem-solving, aiming to advance knowledge and contribute to practical applications. Through this experience, I honed my skills in critical thinking, research methodologies, and teamwork, while also gaining valuable insights into the dynamic field of technology.

Skill Summary

Skill	Level
Machine Learning	78 %
Web Development	81 %
App Development	77%
